A. Green Tuner

Fender® introduces the world's first Chromatic Green Tuner. Simply give the crank a few turns and you're ready to tune. No more expensive and wasteful batteries.

Features include:

- Built-in microphone for tuning acoustic instruments.
- 1/4" jack for tuning electric instruments
- Built-in flashlight for when you need it on a dark stage.

Recommended instructions for usage:

The first time you use the Chromatic Green Tuner it's a good idea to "prime" the power cells by turning the crank 20 times. Any time you use it after that, 5 to 10 turns will do the trick. No need to charge it unless the lights on the tuner are dim. To conserve cell power, please turn the power off when not in use.

STRATOCASTER® PICKUPS SET OF 3

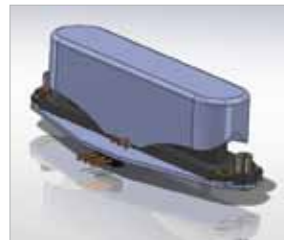

NEW!

A. Stratocaster Split Coil Pickups

Ever wanted MORE tone out of your Fender® single-coil pickups without 60 cycle hum? The answer is likely yes. Introducing the Super 55 Split Coil pickups – fresh off the benches from our Research and Design team, these phenomenal sounding pickups feature two separate, linear wound coils that produce absolute hum-free performance while giving more useful output without sacrificing ANY of the coveted Fender single coil pickup tone and feel. Also featuring symmetrically staggered pole pieces, alnico 5 magnets and 42 gauge Formvar wire. Fender Split Coil, Super 55's give you absolutely everything cool about tone plus a bump in vibe without buzzing out you or your soundman.

Fender Mini Amps: They might be mini in stature but they are HUGE on tone!

Just right for the bedroom, the living room, the hotel room, or backstage.

B. Mini Tone-Master® Amp

The Mini Tone-Master Amp is a miniaturized version of the classic Tone-Master. The Mini Tone-Master boasts glorious tone considering its miniscule size. All the authentic Fender details are here: cab corners, retro grille cloth, and vintage white control knobs.

MODEL	LIST
023-4808-000	\$54.99

C. Mini Deluxe Amp

The Mini Deluxe Amp has a level of detail unmatched by any other mini amplifier. Functional "dogbone" handle, chrome control plate, mini chicken-head knobs. And the Mini Deluxe has Fender tone, too!

Features: 1 watt of power, single 8 ohm, 2" speaker, 9V battery-powered, and headphone out.

MODEL	LIST

SUB-LIME™

Fender

A. Fender Blender™ Fuzz Pedal

The classic and coveted Fender Blender fuzz pedal in all its vintage-style growling glory, instantly puts priceless indie cred right at your tippy-toes. Combined with volume, sustain, tone and blend controls that produce killer-diller fuzz tones.

MODEL	LIST
023-4500-000	\$199.99

B. Fender® Fuzz-Wah Pedal

Rotate it left to right for fuzz. Switch each effect on and off and switch the order of the effects for two distinct sounds. Bottom-panel fuzz volume control lets you boost volume or simply match your guitar's volume when the fuzz is off.

MODEL	LIST
023-4500-003	\$199.99

A. Fender® Volume Pedal

The Fender Volume pedal is a simple, streamlined, silvery sensation that puts sensitive tilt-action volume control at your feet. Built-in tuner output comes in handy, too.

MODEL	LIST
023-4500-001	\$99.99

B. Fender® Volume Tone Pedal

The sleek Fender Volume Tone pedal gives you masterful control over both volume and tone. Tilt back and forth for volume. Swivel it left to right for tone.

MODEL	LIST
023-4500-002	\$119.99

C. Fender® Phaser Pedal

You get efficiently versatile intensity, rate, bypass and frequency controls that let you tailor that ethereal phasing sound to utter perfection. You can easily emphasize treble or bass frequencies, and the big "rate" dial glows blue and red in synch with the phase shift rate.

MODEL	LIST
023-4500-004	\$159.99

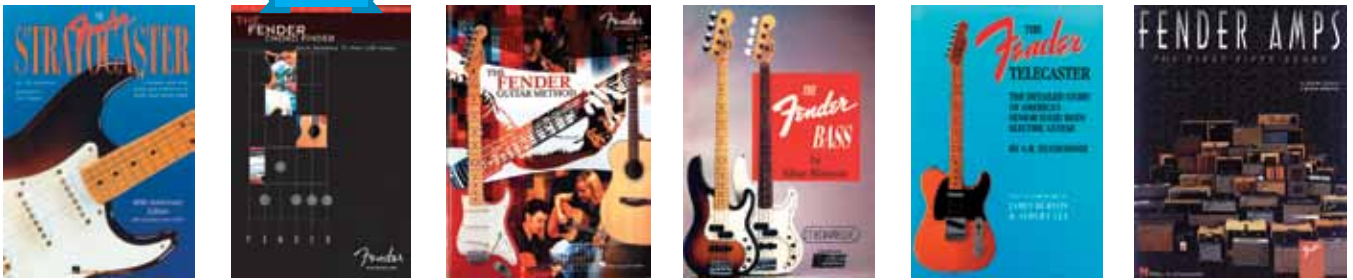

D. Fender® Sublime™ Bass Fuzz Pedal

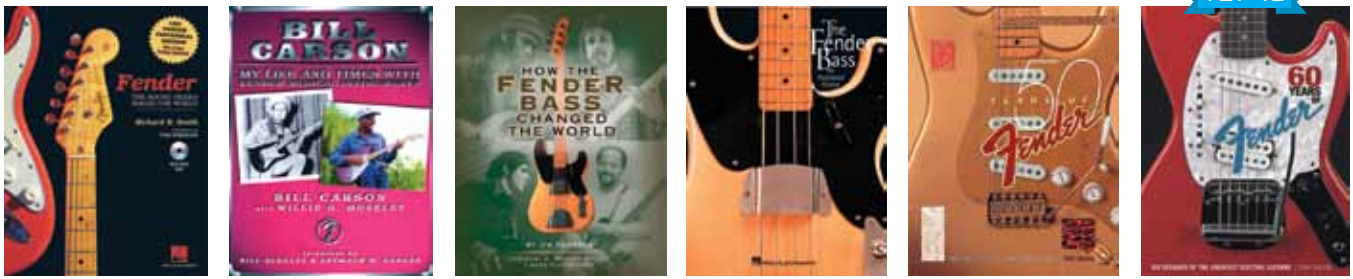

Fender's Sub-Lime Bass Fuzz pedal transforms the sound of any bass with classic Fender fuzz, ranging from just a hint of fuzz to full-on seismic roar. Cross-over control lets you adjust where you want the fuzz: low end, high end, or anywhere in between for an organic, realistic sounding effect. Volume and drive give you complete control over the loudness and range of fuzz tones. Once you're dialed in, a large control dial at the top of the pedal lets you easily adjust the fuzz level while you're playing. Runs on a single 9-volt battery or optional AC adapter.
